

MESSAGE FROM
THE SKIES

LAND a Call to Action
by Anna Fleming

We are human.

The Clyde heard the call as
Feet marched on pavements in restless agitation
energy building

System Change not Climate Change

We need to think outside the system

Listen to the ancestors, the elders, the youth and science

Fight capitalism, Fight colonialism, Fight extractivism

We are nature.

We are of the earth and the earth is of us

The land loves and sustains us

She is ours in love not in domination

Time to end our exile

Silence also speaks

We are everything.

There is no you and I, no them and us
No difference.
Just us.

Brothers, sisters, beautiful strangers
expand your empathy

Think like a mountain
act more than human

Earth is ours.

We are human we are nature we are everything

We will fight and keep fighting.
